Kenna's Corner...

Kenna's Corner

*Hey there!
 It's Kenna here at Kenna's Corner. So recently I have been home a lot due to everything going on in the world, although it's been nice to take a break, I think everyone is ready for things to go back to normal. My birthday is coming up soon so I'm hopeful that I'll still be able to do something fun!*

REV IT UP!

From the Desk of RJ

Wow, It's been awhile since I've sat down to do some writing and get all of you a fresh REV IT UP Newsletter to read through. The shop is still busy and the pandemic is keeping us all crazier than ever. We're still keeping the vehicles on the road for people; in between restoration work, washing our hands incessantly, and wiping down everything in the shop every single day! Thank you to my staff for all of their diligence, and to our clients and vendors for keeping us going here! A shout out to my wonderful daughter, McKenna, who is turning 17 in the middle of all this chaos. Happy Birthday to you and thanks for weathering the stay at home time with Dad! She has been in the shop helping with some office needs and doing extra cleaning work on a regular basis too. My son, Matt and I, took an overdue break and spent some time at Daytona Bike Week just before this pandemic settled in on all of us. Special thanks and love to my in laws, John and Betsy Mosko, for hosting us! All in all, this current situation is extremely tough, yet I am thankful for so many things that are going right for myself and the people around me. My best to everyone as we deal with this tough time in the world!

*Restoringly,
Russell*

*Matt, Russ, and John
At Daytona Pier.
Betsy behind the camera!*

1970 Plymouth GTX

Fresh out of the shop after a laundry list of repairs and upgrades on Doug Weaver's 70 GTX Six Pack car. We did some interior repairs, mechanical work, then added the rocker moldings and Go Wing Spoiler. We also gave it a good buffing and detailing. It's heading for home and ready for cruising season!

1972 Chevy El Camino

We wrapped up the El Camino big block project in the Fall of 2019 and delivered it home to Jim's garage. We're betting he is more than ready to get it out on the road for some fun as soon as the weather and the salt clears! The car looks amazing and it runs really well too! We're sure it will take him back to an earlier time!

1966 Ford Mustang

We brought Kristie Stack's Mustang back to life for her and hope that she gets to hit the road with it this Summer. Here are the final pictures, which show that it came a very long way from where we started!! She stayed the course to see it through to the final details and was all smiles when we handed her keys. We delivered it in the Fall of 2019 and tucked it away appropriately in her horse barn! Happy cruising this season Kristie!

1970 Plymouth Superbird

We've been working steady on this full restoration project since it arrived last Summer. The metal work needs on this project were one of the most challenging we've ever handled. We just pulled it off the rotisserie so we're done flipping the bird. With the Dana rear end installed it's now back in the paint shop and moving through the paint process. We're also prepping the engine parts for paint and working on sub assembly processes. Everyone is looking forward to seeing this one come together!
